

heSBé

Sylvie Bruneau alias heSBé

Visual Artist

painting /// mixed media /// digital arts /// land art

Artistic approach

Abstraction as a language

Visual artist heSBé has a libertarian approach of humans beings in relation to each other, time and space, creating links between intimate and universal.

She explores and revisits the real, with a language where abstraction process become a passing act. A metaphor of movement in which chance enters in resonance with memory and conscience.

Works to discover, as so many sensory experiences which come into dialog with the viewer.

Technical concept

- Abstract expression
- Research in color, composition and materiality of painting
